Ben Skeldon was a high spirited young man with many dreams and plans for the future. He was attending Millersville University as a full-time Technology Education student and was working nearly full-time at local hardware stores and cabinet shops, all the while owning and operating his landscaping business. Ben was so looking forward to becoming a teacher, and as he wrote in his last personal essay, "I enjoy teaching other people how to do something that I love and that I'm good at." Ben set personal goals and lived for the future and knew in his heart where he would be and what he would be doing in ten years.

The question is "Where do you see yourself in ten years and how will your work ethic and education help you achieve your goals?"
