The Charts on the following pages represents families responses disaggregated by Elementary, Intermediate, and High School. (1) represents "Unlikely" and (4) represents "Likely". Each question relative to each chart appears before the chart. Charts with a 5-point scale represent a ranking with (1) being the first choice and (5) being the last choice.

## ELEMENTARY

Questions 1: The "yellow" and "green" phases allow for schools to be in-session (with CDC recommendations of "no more than 25 individuals including staff in a classroom"). What is the likelihood you would send your student to school under these CDC guidelines?
