

	Interpretation of Questions				7/8/20
Notes:	Questions 1-5: Results are based on 3+4/total				
	Questions 6-10 as a group needed to be rated from 1 -5 with 1 being first choice and five being last choice. I used 1&2 for the rating.				
	* If we add the people in #3 then the % change: (7) 75%, (8) 88%				
	if you add column #3 - the order changes to (8), (7), (6)
